

Presidents speech:

Members:

- Our membership rates grew sky high this year, with previous years having 300-400 members, we skyrocketed to almost 600 members! I would say this is most likely due to our Vice President making a speech during the o-week science orientation, as a good amount of our members are from first year!

Events:

Pub crawl - our "Alcohol is the Solution" pub crawl in semester

- 1, and our "Just Another Basic Pub Crawl" joint pub crawl with RACI were both big successes. For future collars, it is recommended that we ask the other groups to help out more with advertising as this wasn't made so clear during meetings. both pub crawls we bought two many shirts for our events, Matt will go further into this
- **2 free BBQs** - always has bread access, didn't seem to sell many soft drinks so maybe try to reduce the price or so next time. 2nd BBQ was moved 1 day due to complications with BBQ hire, though it was good in the end, as the weather was so much better (sunny->rainy). Would also suggest having chairs / beanbags for student mingling
- **Sci ball** - was an amazing success! Sold out of tickets, which was impressive as we hadn't made about even in profits for the last few years, Matt will go into more info. Guest speakers about uni life many years before us, and another about different historical rocks. The open bar was just as popular as always.
- **Quiz night** - last week, was lots of fun for everyone! Unfortunately clashed with the presidents dinner so 2 members couldn't attend. Matt will discuss finances of this after
- **Networking** - was just this Monday, we charged \$5 per ticket to cover for pizzas, and though this may have reduced attendee, those who did register were more likely to show, so it made catering a little easier to organise.
- **Exploring Evolution Week** as a joint event - We did a guest speaker speech. All round went well. generally our pizza proportions were on point for all our pizza events this year!

Committee

- Committee this year have all been fabulous to work with, though I expected a few major bumps, everything was actually very smooth sailing! And it's all thanks to the committee that all of our events were organised very well. thanks very much to all our subcommittees (with a special shout out to sciball decor subcommittee and quiz night questions subcommittee) as I really couldn't have done it without you!

Thank you-s

- Thanks to all AUScA members for supporting AUScA through this year
- Thanks so much committee for all your work
- Best of luck for next committee, and to the next president
